DETAILED ACTION

Reason for Allowance

The following is a statement of reasons for the indication of allowable subject matter:

The present invention is directed to method and apparatus for determining a direct-to-home satellite receiver multi-switch type. The invention further discloses a system and method to determine the type of multi-switch connected to a direct-to-home satellite integrated receiver/decoder. The system looks for a predetermined marker pattern having a first identification code on the first port of a multi-switch using a first type of control signal. The system then determines a second pre-determined marker with a second identification code to address the third port of the multi-switch. The system then determines the type of multi-switch if the first identification code is not equal to the second identification code (e.g., a DiSEqC type of multi-switch).

Claims 1,15 identify the uniquely distinct feature as underlined above and therefore claims 1,15 and their dependent claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee.

Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
